WORK EXPERIENCE

BioBuzz — **Baltimore, MD**
GTM Fellow, CRM & Revenue Operations — *Jun 2025 – Present*

- Unified Sales, GTM, and Customer Success views by architecting a HubSpot data model (Contact, Company, Deal) that translated CEO workflows into CRM structure.
- Gave leadership weekly visibility into 51% platform-user growth by building an executive GTM dashboard that tracks subscribers, members, conversion, and deliverability.
- Raised newsletter click rate 2.7x (0.95% to 2.56%) in 6 weeks through Hubspot by segmenting members from subscribers and redesigning the Regional Roundup that focused on engaged contacts.

Eternus Bio Corp (formerly uCleaner L.L.C.) — **College Park, MD**
Digital Marketing Strategy & Content Development - MBA Intern — *Jun 2025 – Present*

- Own digital marketing strategy and content operations across 5 platforms, managing 6 team members to improve audience growth and campaign execution.
- Built KPI dashboards and executive reports using GA4, Meta Insights, YouTube Analytics, and Excel to guide campaign and channel decisions.
- Refined ICP and brand positioning for bioengineering, dentistry, and science-driven audiences by translating engagement trends into GTM recommendations.

BBVA S.A. — **Lima, Peru**
Data Scientist — *Jun 2022 – Jul 2024*

- Increased digital loan sales 8% by developing predictive models that identified customers most likely to adopt financial products.
- Improved cross-selling revenue by 20% and reduced analysis time 30% by automating customer segmentation using SQL, PySpark, Python, and Tableau.
- Increased digital credit card sales by 15% and salesforce productivity 10% by building channel-optimization pipelines across customer behavior data.
- Validated machine learning recommendations through A/B tests across thousands of banking customers by measuring adoption, conversion, and incremental lift.

Belcorp S.A. — **Lima, Peru**
Digital Data Analyst — *Jul 2021 – Jun 2022*

- Reduced decision-making time 25% by translating app usage, click behavior, and engagement data into product and marketing recommendations.
- Improved targeting effectiveness 30% by identifying high-value consultant segments through behavioral analytics and customer segmentation.
- Reduced manual reporting 50% by developing Tableau dashboards that tracked consultant performance, feature adoption, and user engagement trends.

LEADERSHIP & PROJECTS

ARMR / University of Maryland MBA Capstone
Product Manager, Go-to-Market Strategy — *April 2026*

- Lead go-to-market strategy for XT1 tourniquets by identifying market-entry priorities and commercialization opportunities across healthcare audiences, providing senior leadership teams with GTM recommendations.

EDUCATION

University of Maryland, Robert H. Smith School of Business — **College Park, MD**
Master of Business Administration, AI & Business Strategy — *May 2026*
